

screen solutions™

Screen Solutions is an Australian owned manufacturing company that supplies local and interstate resellers with generic and custom built office screens.

At Screen Solutions we pride ourselves on our reputation for producing innovative products of a high standard. Our partitioning systems offer a range of designs, sizes, cable management and fabric colours that add to the aesthetic appeal and the acoustic qualities. Accessories including storage and shelving can also be incorporated to cater for individual workspace needs. Our system can offer a solution to creating a high density workspace or simply a more private work area for individuals.

ENVIRONMENT

At Screen Solutions we are dedicated to the use of materials and manufacturing processes that are carefully selected in order to minimise adverse effects on the environment. We aim to continually improve our work practices and regularly

review our raw material usage to ensure that we are using the most environmentally friendly product applicable to our manufacturing process. The disposal of all our waste materials is achieved through reputable waste disposal organisations.

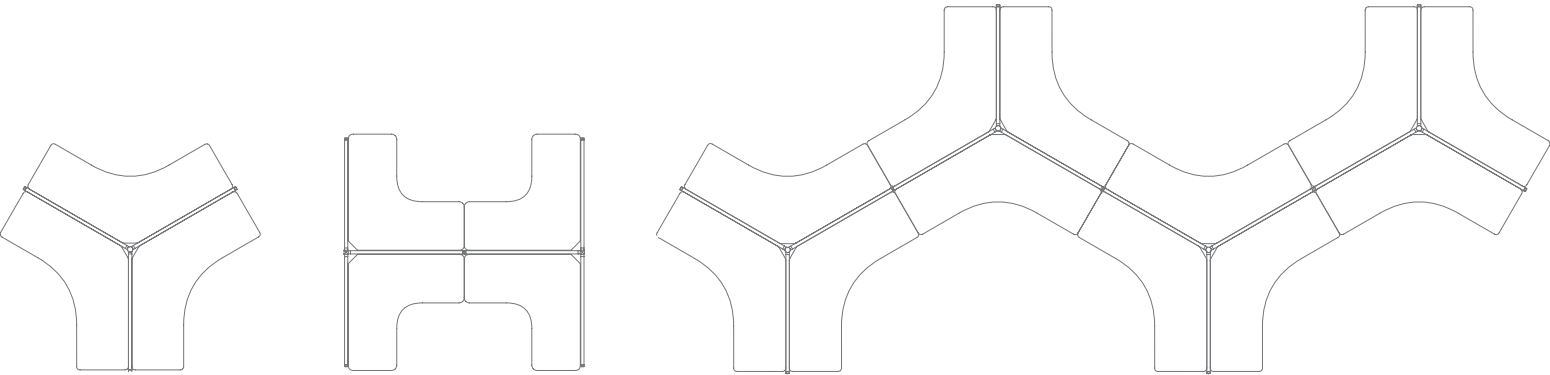

We actively recycle waste wherever processes are available to do so. It is the intention of our organization to continue to strive to prevent pollution within our manufacturing process and the materials used within our products.

DIRECTION 50

Direction 50mm Screen System

CONFIGURATIONS

Direction 50mm Screen System - Versatile, functional and affordable system to suit most office applications. Cat 5 & Cat 6 compliant. Direction 50 can be hard or soft wired, and services can be located below or above worktops.
