# our vision

To become the complete, innovative business partner that adds value and protection to our clients business, people and assets

## about

Inventis Gregory is a diversified company involved in the design, manufacture, sales and marketing of products and services whose foundation is based upon 'inspiration' and 'innovation'.

From electronic control solutions that help Australian electronics and whitegoods manufacturers lead the way in features, innovation, reliability and safety; to safety systems that make roads safer for drivers and pedestrians alike; to rugged portable computers that take desktop applications into the field and keep them there; to ergonomic office seating solutions that improve quality of life and productivity; Inventis Gregory creates inspired solutions for domestic and international markets worldwide.
